

## Part A. Personal Information

<b>DATE</b>	3-04-2019
-------------	-----------

Surname(s)	González-Férez	
Forename	María Rosario	
Social Security, Passport, ID number	52809872D	
Sex	Female	
Age	45	
Researcher codes	WoS Researcher ID (*)	A-2421-2009
	SCOPUS Author ID(*)	
	Open Researcher and Contributor ID (ORCID)	0000-0002-8871-116X

(\*) At least one of these is mandatory

### A.1. Current position

Post/ Professional Category	Associate Professor (Profesor Titular de Universidad)	
UNESCO Code	220699 (cold and ultracold atoms and molecules in fields)	
Key Words	Electromagnetic fields, ultracold and cold atoms and molecules, Rydberg atoms and Rydberg molecules	
Name of the University/Institution	Universidad de Granada	
	Department/Centre	Dpto Física Atómica Molecular y Nuclear & Inst Carlos I Física Teórica y Computacional
	Full Address	Avda. Fuentenueva SN, Granada
	Email Address	rogonzal@ugr.es
	Phone Number	958243220
Start date	23/04/2008	

### A.2. Education (title, institution, date)

Year	University	Degree	Title
1996	Universidad de Granada	First degree	Physics
		<i>Masters (if appropriate)</i>	
2001	Universidad de Granada	PhD	Physics

### A.3. Indicators of Quality in Scientific Production (See the instructions)

<p>Research six-year terms of the Spanish Ministry of Science: 3 (last one 2009-2014)          4 PhD thesis supervised (2008, 2010, 2013, 2018).          Number of Publications: 65, 47 in the first quartile of WOS, 19 in period 2014-2019          Sum of the Times Cited: 838 (Web of Science). Average of Citations in 2014-2018: 74          Average Citations per Article: 13.05 (Web of Science)          H-index: 18 (Web of Science)</p>

## Part B. Free Summary of CV (Max. of 3.500 characters, including spaces)

I am Associate Professor in the Department of Atomic Molecular and Nuclear Physics of the Universidad de Granada in Spain since 2008. My research is devoted to theoretically investigate the structure and dynamics of atoms and molecules in external fields, highlighting the theoretical interpretation of experimental results of molecules in external fields and experimental proposal for ultracold systems. My work on molecular dynamics in combined fields has shown that the mixed-field orientation of molecules is a nonadiabatic process and

we have provided the experimental conditions to reach the adiabatic limit. I have also investigated the formation of ultracold molecules, the dynamics of Rydberg atoms in an optical lattice and the structure of ultralong-range Rydberg molecules.

My scientific results have been published in over 60 peer-reviewed international journal publications, (Phys. Rev. Lett., New J. Physics, J. Chem. Phys., Phys. Chem. Chem. Phys., Phys. Rev. A); several of these works are collaborations with experimental groups. My results have been presented in many international workshops and conferences, many times as invited speakers, to highlight 39th & 47th Annual Meeting of the Division of Atomic, Molecular, and Optical Physics (DAMOP) of the American Physical Society, Optical Society of America's (OSA's) 92nd Annual Meeting, ICOLS 2013: The 21st International Conference on Laser Spectroscopy, EGAS (European Group on Atomic Systems) 2014 and Cold and Controlled Molecules and Ions Conference 2014, XXIX International Conference on Photonic, Electronic, and Atomic Collisions (ICPEAC 2015). I have supervised 4 PhD theses, 7 Master theses, 2 Bachelor Theses, and currently I am supervising 2 PhD students, and 2 master students.

I have received The Mildred Dresselhaus Award for Young Scientists 2013 from The Hamburg Centre for Ultrafast Imaging (CUI) at the University of Hamburg (Hamburg, Germany) for my contributions in the field of atomic and molecular physics, especially in the theoretical description of molecules in external fields and ultracold molecules.

Regarding academic and scientific management, I was the key person and supervisor at the University of Granada of the FP7-PEOPLE-2010-ITN COHERENCE (Cooperativity in Highly Excited Rydberg Ensembles - Control and Entanglement), and the IP of several Spanish research projects. I have been the academic coordinator of the Master in Physics and Mathematics FisMat of the Universidad de Granada from November 2012 till May 2017, and I am member of the academic commission of the doctoral program in Physics and Mathematics FisMat. I have been referee of the ANEP in the programs Ayudas Formación Posdoctoral 2013 and Ramon y Cajal 2014, and of the German Research Foundation. I am chair of the European Group of Atomic Systems EGAS Board since July 2018, and member of the Commission on Atomic, Molecular and Optical Physics (C.15) of the International Union of Pure and Applied Physics (IUPAP) for the term 2018 – 2020, and of the Atomic, Molecular and Optical Physics Division of the European Physical Society since July 2018.

## Part C. Relevant accomplishments

### C.1. Selected Publications in the last 5 years.

L. V. Thesing, A. Yachmenev, R. González-Férez & J. Küpper 2018, *Laser-induced alignment of weakly bound molecular aggregates*, Physical Review A **98**, 053412

## **C.2. Research Projects and Grants**

Nolinealidad, Control e Incertidumbre Cuánticas  
Project FIS2017-89349-P, Ministerio de Economía y Competitividad (Spain)  
PI: Dr. R. González-Férez  
Duration: 2018 - 2020

Control de Sistemas Cuánticos (Control of Quantum Systems)  
Project FIS2014-54497-P, Ministerio de Economía y Competitividad (Spain)  
PI: Dr. R. González-Férez  
Duration: 2015 – 2017

Teoría de la Aproximación, Funciones Especiales y Modelos Matemáticos: de la Teoría a las Aplicaciones Oftalmológicas  
Excellence Research Project P11-FQM-7276, Junta de Andalucía (Spain)  
PI: Prof. Andrei Martínez-Finkelshtein  
Duration: 30/04/2013-29/04/2017

COHERENCE-Cooperativity in Highly Excited Rydberg Ensembles - Control and Entanglement  
Project number 265031 FP7-PEOPLE-2010-ITN, Marie Curie Actions Initial Training Networks, European Union.  
PI: Prof. Matthias Weideüller (Universität Heidelberg)  
PI at the Universidad de Granada: Dr. R. González-Férez  
Duration: September 1, 2011 - August 31, 2015

Física de la Información, Sistemas Ultrafríos y Nolinealidad. Aplicaciones Multidisciplinares.  
Project FIS2011-24540, Ministerio de Ciencia e Innovación (Spain)  
PI: Prof. J. Sánchez-Dehesa  
Duration: 2012 - 2014

Moléculas ultrafrías en campos electromagnéticos externos  
Project PYR-2010-16. Campus of International Excellence CEI BioTIC GENIL (CEB09-0010), Universidad de Granada.  
PI: Dr. R. González-Férez  
Duration: January 1, 2011 - December 31, 2011

## **C.3. Contracts**

## **C.4. Patents and other IPR**

## **C.5 PhD Students**

Name: Pablo Sánchez Moreno (scholarship FPU)  
Supervisors: J. S. Dehesa, R. González-Férez y R.J. Yáñez  
Title: Medidas de información de funciones especiales y sistemas mecano-cuánticos, y dinámica molecular en campos eléctricos homogéneos dependientes del tiempo  
Defense date: February 18, 2008

Name: Beatriz Olmos Sánchez (scholarship FPU)  
Supervisors: J. S. Dehesa, R. González-Férez e I. Lesanovsky  
Title: Information measures of quantum system and Collective Rydberg excitations of an atomic gas confined in a ring lattice  
Defense date: March 22, 2010

Name: Juan J. Omiste Romero (scholarship FPU)  
Supervisor: R. González-Férez  
Title: Interaction of rotationally cold molecules with external fields  
Defense date: July 15, 2013

Name: Javier Aguilera Rodriguez (scholarship EU ITN COHERENCE)  
Supervisor: R. González-Férez  
Title: Ultralong-range Rydberg Molecules  
Defense date: January 12, 2018

## C.6 Orgnization of Workshops and Conference

- Special Functions, Information Theory and Mathematical Physics. An interdisciplinary conference in honor of Prof. J. S. Dehesa's 60th birthday 17-19/9/2007, Granada
- MUARC & MPAGS Summer School on Quantum Matter: Foundations and New Trends, 18-22/9/2011, Granada
- Interdisciplinary Workshop on Nonlinear Schrödinger Equations and Applications: Modeling, Mathematical Analysis, Computation & Experiment 8-10/10/2011, Granada
- Series of Summers School on Quantum Matter: Foundations and Applications, 15-19/9/2013, 14-17/9/2015, 27-31/8/2017, Granada
- Cold and Ultracold Molecules Workshop, 4-6/11/2013, Granada
- YEA meeting and Idea Factory, 8-9/9/2014, Granada
- Ultracold Rydberg Physics Workshop, 10-12/9/2014, Granada

## C.7 Scientific committee

- Member of the Scientific Panel of the conference series on Cold and Controlled Molecules and Ions.
- Member of scientific committee the final conference of the ITN COHERENCE, June 28 to July 03, 2015 Durham (UK)
- Member of the Ultracold Quantum Matter and Quantum Simulation subcommittee of the CLEO/Europe-EQEC 2017 and 2019
- Member of the European Group of Atomic Systems Board since July 2017, Chair of the board from July 2018
- Member of the Commission on Atomic, Molecular and Optical Physics (C.15) of the International Union of Pure and Applied Physics (IUPAP) for the term 2018 – 2020
- Member of Atomic, Molecular and Optical Physics Division (AMOPD) of the European Physical Society (EPS) since July 2018

## C.8 Avarsd and Honnors

- Special Mention with Honors in the studies B. Sc. in Physics, Spain, 1996
- "Award for Excellence" in Ph.D. in Physics (2000-2001). University of Granada.
- Alexander von Humboldt Foundation Postdoctoral Scholarship 04/2002 to 01/2004
- The Mildred Dresselhaus Award for Young Scientists 2013 (first recipient) of The Hamburg Center for Ultrafast Imaging, Universität Hamburg, Hamburg (Germany)
